MEMORANDUM FOR: Director of African and Latin American Analysis, DI
FROM: Director of Central Intelligence
SUBJECT: Strengthening our Analytic Effort on South Africa

1. These are good steps and I have only one comment. We need also to watch very closely the evolving situation with respect to Namibia, Angola and Mozambique. There is likely to be a rapidly evolving situation there and it will require close scrutiny of how evolving policies work.

2. If you have your best analytical talent focused on South Africa, I would think it might be possible and desirable to add that to their mission. On the other hand, I see South Africa and the neighboring states as two inter-related sets of problems, each of which should be tackled separately on its own merits with possible cognizance of inter-relationships.

3. That's just a suggestion and I leave it to you as to how to handle it.

William J. Casey
